MORE EXCITEMENT.

Last Friday at the Growers Warehouse excitement ran high when the crop raised by Ray Sterrett on the farm of Mr. T. D. Osborn was offered, one basket of exceptional quality being wanted by Stanton Clift for the Reynolds Company, Sammy Huggart for the American, and J. C. Burwell for the Liggett & Myers Company, each one taking part in the bidding, and by leaps and bounds it mounted to the RECORD PRICE OF THE SEASON, \$60.00 per cwt., Mr. Clift being the successful purchaser.

MRS. GASKINS DEAD.

The death angel visited the home of Mr. Thomas Gaskins of Ellisberry, O., and took from him his wife, Mrs. Mollie Gaskins, after a two weeks' illness of pneumonia. She is survived by her husband and four small children, her mother and two brothers and one sister, Mr. Turner Parker of Ellisberry and Mr. Martin Parker and Mrs. Hattie Dryden of this city, besides a host of friends to mourn her loss. But our loss is heaven's gain. Burial last Friday at Manchester cemetery, services by Rev. Posey.

TOBACCO SUPERVISOR'S REPORT.

The market closed Friday very strong. Throughout the week we have not heard complaint from the farmers and all were well pleased with prices. There has been more tobacco coming in this week, only the last two days the rain and snow checked the hauling. We advise putting it on the market, as we can not look for any advance. Total pounds sold this week 1,453,295 pounds at an average of \$11.62.

HARVEY T. GRANNIS

Brother of Commonwealth Attorney H. S. Grannis, Died Suddenly At His Home Near Flemingsburg Saturday.

Harvey T. Grannis, aged 65, prominent resident of Fleming county and well and favorably known in this city, died suddenly at his home near Flemingsburg Saturday afternoon of heart failure.

He had been dining out and had just returned to his home when stricken.

Mr. Grannis had become by his industry and economy, one of the largest landholders in Fleming county.

He is survived by his widow and three sons, Herbert, Erret and Dutton, and one daughter, Mrs. Elsie Burns.

Mr. B. S. Grannis, Commonwealth Attorney of this district, is a brother of deceased.

AGED MAN KILLED

Special No. 5 On the C. & O. Struck John Hessler, Who Was Walking On the Track Near Bradford.

John Hessler, an aged man, was struck and instantly killed Sunday morning west of Bradford by Special C. & O. train No. 5.

He was walking on the westbound track in company with his two nephews, and a long freight train was passing on the eastbound track and the three did not hear the warning whistle of the fast passenger train until it was so close that the two younger men barely had time to leap from the track, they being uninjured, but Hessler was struck and killed.

THE LIBERTY BELL.

Residents of this city and vicinity don't have to travel to Philadelphia to see the Liberty Bell. We have one of our own. The Liberty Warehouse Company has placed a large Liberty Bell sign in front of their warehouse on Commerce street, so when your patriotism gets on the blink, just go out and take a look at Col. Jones' Liberty Bell.

T. S. Davidson cut his brother, James Davidson, so badly Saturday morning that he died that night. The cutting occurred near their home in Adams county, O.

PERMANENT ORGANIZATION

Of Good Citizens' League Effected Sunday Afternoon At Gem Theater--Resolutions Adopted Expressing Confidence In Officials.

Sunday afternoon at the Gem Theater a large number of the representative citizens of Maysville met for the purpose of making an organization that would stand behind the city and county officials in enforcing the local option laws.

Mr. James S. Dawson called the meeting to order and on motion was named as temporary chairman.

Addresses were made by Rev. W. B. Campbell, Rev. J. M. Lital and Mr. Dawson, the key-note of each being that the citizens of Maysville and Mason county were not afraid that the officers would not do their duty, but wanted to assure them that every loyal citizen would stand back of the officers in their work of enforcing the law.

A committee composed of Messrs. W. W. Hall, A. E. Stahl, J. D. Easton, George W. Royce and Dimmitt Knight were appointed and drafted the following resolution which was unanimously adopted:

"We, as citizens of Mason county, state of Kentucky, in mass meeting assembled at Maysville, Ky., this 9th day of January, 1916, do hereby adopt the following:

"That we have noticed with great satisfaction the statements made by our officials, both county and municipal, in which they express their determination to enforce our present existing local option laws.

"That it is our opinion that this is an important time in the history of our town and county.

"That we feel that we are especially fortunate in having, as administrators of the law, men whose purpose and plan is to do their whole duty.

"That we hereby assure them that we, as citizens, are back of them, and ready to stand with them, in the enforcement of the law.

"That we hereby pledge ourselves for any service we can render them in the accomplishment of this great work.

"And finally, that we express our confidence in the ability and judgment of our City Council to enact such ordinances as will be in keeping with our present laws, and as will promote the best interests of our community. And specifically, that we endorse the action of the City Council at its last meeting, with regard to licenses and fines.

GEORGE W. ROYCE, "Secretary" Committee on Resolutions.

After the adoption of the resolutions a majority of those present signed them and they will be presented today to the city and county officials.

The organization was permanently organized under the name of "The Maysville and Mason County Good Citizens' League," of which Mr. James S. Dawson was elected permanent chairman and Mr. George W. Royce secretary.

MRS. JANE BLANCHARD

Aged Maysville Woman Died Sunday Morning At Her Home In the East End.

Mrs. Jane Blanchard, one of Maysville's aged and respected old ladies, passed away at her home at the corner of Second and Commerce streets, Sunday morning at 7:55 o'clock after a two months' illness, aged 90 years.

Mrs. Blanchard was before her marriage, Miss Jane Tudor and the most of her long life was spent in this city, where she made many friends.

She is survived by three children, Mrs. Mollie Owens and Mr. Henry Blanchard of this city, and Mr. Charles Blanchard of Richmond, Cal.

The funeral arrangements have not yet been completed.

SNOWHALLED THE BAND.

Sunday afternoon after the mass meeting at the Gem Theater, a number of boys were assembled near the Stephenson & Keith garage and proceeded to snowball the Maysville band with great vigor, causing several to retreat. Chief of Police Mackey soon arrived on the scene and secured the names of the boys and told them to appear in Police Court this afternoon.

The practice of throwing snowballs at people unawares is very dangerous and a young business man of the West End almost had one of his eyes put out last week by being hit by a hard snowball.

A few fines would soon put a stop to the dangerous sport.

Mr. William Norris and nephew of Houston, Tex., and Mrs. Fred Wedder and Mrs. Martin Loden, were here Sunday to attend the funeral of the late Joseph R. Carpenter.

RIOTERS

Seize Youngstown--Refusal of Steel Mill Concern To Meet Wage Demand Followed By Slaughter and Arson; Eight Killed

Youngstown, O., January 8.—A reign of terror has been precipitated in East Youngstown by riotous steel mill strikers.

In battles with the private police at the mills eight persons were killed and nineteen more injured, two of them fatally.

Last night the rioters applied the torch freely. Ten buildings were set afire and at midnight the fire was not under control, the loss being estimated at over \$500,000.

Not satisfied with this exhibition of its fury the mob turned to the business section. Part of the mob entered a saloon and after looting the place and distributing the liquor among the frantic foreigners in the crowd, set fire to the place.

Three regiments of Ohio National Guard—the Fourth, Fifth and Eighth—were ordered by Governor Willis to proceed at once to Youngstown.

Sheriff Unstead who, with Brigadier General Speaks and other National Guard officers, went to East Youngstown and was attacked by the mob. Red pepper was thrown in the sheriff's eyes and he was badly beaten.

The fire companies which attempted to check the flames in the East Youngstown business district, were beaten off by the mob. Many shots were fired, but the firemen got safely back to Youngstown.

MURDER TRIAL TODAY.

Augusta, Ky., January 10.—Charles Hamilton, the youth indicted for the murder of Nimrod Showalter, town marshal of Brooksville, on June 14 last, will go to trial today at a special term of the Bracken Circuit Court. Young Hamilton escaped at the time of the murder, but was surrendered to the authorities by his father in November.

Maysville Lodge No. 52, P. & A. M., will meet tonight at 7 o'clock in regular session. Work in M. M. degree. All members are urged to attend the meeting. Visitors and members of neighboring lodges are cordially invited to be present.

H. M. CLARK, W. M.

P. G. Smoot, Secretary.

ROBERT L. GAULT.

Mr. Robert L. Gault, aged 85, whose critical illness has been noted in The Ledger, died at his home near Maysville Thursday night.

Mr. Gault was one of the family of that name who have been among the most prosperous citizens of Mason county and this section of Kentucky for the last fifty years, and his passing away removes one of this county's beloved and highly esteemed residents.

He is survived by one son and one daughter.

The funeral occurred Saturday morning at Shannon. Burial in the Shannon cemetery.

IT'S A HARD LIFE.

Three small words, "for personal use," have disconcerted a number of Maysville residents. Those who have ordered "refreshments" from Cincinnati neglected to specify the liquor was "for personal use," consequently delivery from the freight depot has been refused. There are about twenty barrels of bottled beer held up. Meanwhile Maysville thirsts.

THE ADVANCE IN GASOLINE.

Resolutions are pouring into Congress demanding an investigation of the high price of gasoline. The petitioners are quite a different element from those who have previously protested against price advances. Many of the gasoline users have been quite calm while meat, grains and fuel have been mounting upward. It is a politically influential element, which Congress can not afford to ignore.

Of course, this advance is at least partly due to the law of supply and demand. The consumption of gasoline has multiplied, while supply has remained stationary or has declined, though reopening of the Mexican and Russian wells would help out.

Whether or not the gasoline producers can be reached under the anti-trust law is a matter that Congress should thoroughly investigate. Even if they can't, it will be poor policy for the producers to push their advantage too far. They should remember that scientists and manufacturers are already actively at work to find a satisfactory fuel oil at a lower cost.

At present such substitutes are denatured alcohol, kerosene, etc., may cost too high, or in some cases may clog motors with waste products. But every cent the gasoline people tack on their price simply stimulates these efforts for a substitute, which one day are almost sure to be successful.

For the present it looks as if the motor user must adjust himself to somewhat higher prices. People of moderate means would do well, in estimating the cost of a machine, to make a liberal allowance for fuel oil. They can offset it by buying less expensive cars. The cheaper makes may not be able to take hills on high speed. They may be a bit "tinny." But people should not be so soft that they can't stand a little jolting. They should remember that the pioneer automobile users were bounced around in costly cars that on the whole are inferior to many cheaper makes of today. And all the time they were gloriously enjoying the sport.

GAINS AND LOSSES IN HEALTH.

A recent health report from New York City shows that deaths from typhoid included only 143 persons, as against 224 five years ago. Those due to diphtheria and crup fell from 383 to 270. Other diseases due to contagion, poor sanitation, etc., show similar reductions.

Not so good a showing could be made in diseases due to overwork, high living and nervous worries. For every life that is saved by eluding the germs, a new one is lost because people live at a higher pace. To cut a really big slice off the death rate, human nature will have to be unhealthily made over.

While the taxpayers are assessing themselves heavily for food inspections and quarantines and all the machinery of modern disease prevention, they are constantly tuning up the speed of their machinery, sitting up later at night and loading their stomachs with concoctions that would upset an ostrich. On the whole the death rate is declining. But in view of what is being done in the way of public disease prevention, it ought to drop a great deal faster.

NO OCCASION TO FANCY.

Commenting on the fact that the Federal Reserve bank has been in operation for a year, the New Orleans Picayune exclaims: "Fancy what might have happened without the new system in the first weeks of the war!"

Fortunately we do not have to fancy. We know exactly what happened then "without the new system," for the new system then had none but a skeleton existence. But there then stood on the statute books a most excellent Republican enactment, known as the Aldrich-Vreeland law and providing for an issue of a well fortified emergency currency. A Democratic administration made use of that Republican law and issued the necessary currency—which saved the situation "in the first few weeks of the war."

The annual report of the Democratic Secretary of the Treasury will bear evidence to this and we commend the facts to the Picayune and to other Democrats who are inclined to run riot in exaltation.

The solidarity of Republican and Progressive strength in Congress had an impressive demonstration in the first record votes which the house took at this session—those connected with the extension of "war taxes" in times of peace. Not a Republican, not a Progressive voted for the measure, admittedly obnoxious, as Mr. Kitchin, the Democratic leader said. And, to show the other side of the shield, five Democrats left the reservation and voted against the measure. The debate was spirited and, on the Republican side, indicated again the reunion of Republican sentiment and action against the old-time foe. It was a good curtain-raiser for more interesting performances yet to come.

Do you farmers think you could have marketed this enormous crop at a price that would have covered the cost of production, if there had been no war in Europe? If not, are you going to let a lot of cheap politicians make you believe that the Democratic party brought you big crops and big prices?

The railroads are threatened with indictment if they don't reduce the number of accidents. But would the public patronize trains that are not fast enough to get smashed up sometimes?

Visitors to The Hague recently failed to find the Peace Palace, until the Oldest Inhabitant recalled that they are using it now to store gunpowder in.

The Russian government throws the poets into prison, but that does not make them feel so badly as throwing their poems into the waste basket.

There is a unanimous agreement among the Congressmen that the strictest economy is needed everywhere except in their own districts.

"I only play cards for fun," is the excuse he gives his wife. Of course. That's all the loss ever gets out of it.

Holds the Record.

(Winchester Democrat.)
Elder J. W. Harding of this city, holds the record no doubt for performing more marriages than any other minister in the state. During the year just passed he was called upon to marry forty-eight couples, and married forty-seven. He also participated in twenty-one funerals.

Home Grown Lemons.

(Georgetown News.)
Mr. and Mrs. H. Sherlick gathered their "crop" of lemons this week, which included one lemon, which weighed a pound and a quarter, and perfect in shape and color, being as large as an ordinary grapefruit in size. They sent the lemon to a niece in New York as a sample of what Scott county can produce in the way of fruit.

The Rat That John Caught.

(Hazard Herald.)
John Sexton told us a "rat story" a few evenings ago and it is too good to keep, so we pass it on.

John baited his rat trap one night last week. Next morning he found that two of the pesky rodents had become ensnared, so he thought he would just let them remain in the trap over the next night and perhaps they would attract others. On the second morning John again inspected his rat trap and found—only one rat, but he, as John described him, was as large as a tom cat. The two caught on the previous night were of ordinary size—"full grown," John said. There was a mystery. "What became of the first two rats you caught," we asked, and John solemnly declared that "the big rat had eaten up the other two, cleaning 'em up as slick as a button—not leaving hide nor hair."

OUR DAILY BIRTHDAY PARTY
January 10.

Dr. Frederick G. Cottrell, the young California chemist who has solved the problem of eliminating the smoke evil in cities, and has turned his invention over to the Smithsonian Institution with the understanding that its earnings shall henceforth be applied to the advancement of science, is 30 years old today. Cottrell is well known in science, but almost unknown to the reading public. He worked out the problem of ridding cities of smoke and coal dust, and after his method had been proven a success, he sacrificed it for the cause of science. Already \$160,000 has been earned for science, due to the unselfishness of the young Californian. Dr. Cottrell was born at Oakland, January 10, 1877, and studied at the University of California and the Universities of Berlin and Leipzig. On his return to America he became an instructor in the University of California. In 1911 he entered the service of the Bureau of Mines and became chief chemist of the San Francisco laboratory. At a modest compensation he is giving much of his time to helping the mining industry. Dr. Cottrell sought his education without wealth and is today a comparatively poor man. His invention, which has proved so successful, solves a troublesome riddle for big cities. By his process the solid matter in smoke is precipitated electrically and does not leave the smokestack or the smelters. What distinguishes Dr. Cottrell from the regular order of inventors is that he attributes his success to experiments done by other scientists before him. He insists that all he has done is to build from the basis they had established. American and European scientific societies have recognized the value of his work.

Dr. David B. Johnson of Rock Hill, S. C., president of the National Education Association, 60 years old today. Cardinal Beilin, the famous prelate of Quebec, 78 years old today. Hon. Reed Smoot, United States Senator from Utah, 54 years old today. Hon. Carroll S. Page, United States Senator from Vermont, 73 years old today. Samuel P. Colt, president of the United States Rubber Company, 64 years old today. Charles G. D. Roberts, prominent writer, 86 years old today.

CHICAGO GAS MAGNATES ON CARPET.

Chicago, January 10.—Officials of the Public Service of Northern Illinois, headed by Samuel Inghil, president of the concern, will appear today before the Public Utilities commission to answer to charges that the company is organized illegally, that there is an interlocking directorate with other companies and it is over-capitalized, that excessive salaries are paid to the officers and that its gas rates are exorbitant. At a recent hearing President Inghil testified that his yearly salary is \$36,000.

A Splendid Yield.

(Falmouth Outlook.)
Pat Welch, one of the county's most thrifty farmers, of the Double Bleech neighborhood, last week sold 950 pounds of tobacco at the Falmouth house for \$150.34, after the warehouse charges were deducted. This tobacco was raised on one acre of land. The same piece of ground was in tobacco last year and produced 1,315 pounds and sold for \$146. This year's crop produced less pounds but more money. Mr. Welch is one of our farmers who is taking advantage of the great opportunities now floating around in this good sweet clover country and uses his head as well as his hands in farming.

Wants To Make Good.

(Stanford Interior Journal.)
W. E. McGuffie of the southern section of this county, came in to Sheriff J. G. Weatherford's office here on Wednesday and gave himself up to Mr. Weatherford, saying that he was wanted for forging the name of B. W. Leigh of Hustonsville, to a check on the Selence Hill, Pulaski county, bank for \$100, and had also given a number of "cold checks." McGuffie said that he desired a chance to "make good," and in proof of it exhibited a large roll of bills. He sent out for several Stanford merchants and business men to whom he had given cold checks and paid them. He told Mr. Weatherford that he would like to be taken to Selence Hill and have an opportunity to pay the bank there what was owing it on the check he had forged, but as a warrant has already been issued for his arrest by officers at Somerset, Sheriff Weatherford was compelled to take him there and turn him over to the officers. McGuffie says he has been away for some time and has made enough money to pay off all he owes.

Maysville Citizens Should Read and Read This Advice

Kidney trouble is dangerous and often fatal.
Don't experiment with something new and untried.

Use a tested kidney remedy.
Begin with Doan's Kidney Pills.
Used in kidney troubles 50 years.
Recommended here and everywhere.

A Maysville citizen's statement forms convincing proof.

It's local testimony—it can be investigated.

Henry Callensteln, blacksmith, Popular street, Maysville, says: "Doan's Kidney Pills are the best of kidney medicines. I have used different kinds and no other has ever equalled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The cure has been permanent."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Callensteln. Foster-Milburn Co., Props., Buffalo, N. Y.

SOME DOGS.

Stanley Biske, proprietor of the Binegrum Farm Kennels at Berry, Harrison county, has issued his annual statement, showing that during 1915 he shipped 1,500 dogs at an estimated value of \$60,000. His dogs ate 85,000 pounds of feed, much of which he gets from the refuse of Cincinnati restaurants. The express weight of dogs shipped out reached 123,000 pounds.

Clarence L. Martin, soldier, educator, musician and known to thousands of Louisville lodge members as "the grand old man of Kentucky Knights Templar," is dead. The end came at the Norton Memorial Infirmary, Louisville, after a lingering illness. Shortly before noon on Christmas he suffered a stroke of paralysis. At the time of his death he was inspector general of the grand commandery of Kentucky Knights Templar.

PREPAREDNESS PLAN

People Should Think For Themselves and Avoid Political Huncombe.

Washington, January 10.—To those who may be carried away by the cooked-up enthusiasm of the "preparedness" campaign now being conducted throughout the country by the munition interests and those patriotic societies that are misled by insidious influences to see great danger threatening the United States, it is well to consider an editorial printed recently in the Corona (Cal.) Courier, California, be it remembered, is one of the favorite stamping grounds of the war jingo, where the peril of the Japanese is ever and anon flaunted to stir up "patriotism."

Says this sensible editor, in discussing the political issues of 1916, as quoted from the Literary Digest:

"The issue should not be that old ghost of an issue, the tariff, but rather a return of truly business administration, run on business principles, with a view of getting the greatest return for the money spent. All this talk of a greater army and navy is pure humbug, and the administration should be big enough to see the hidden graft. If only the people would do a little thinking for themselves and not let the big dailies do it all!"

Henry Ford, who is vastly interested in the so-called "preparedness" campaign, said recently after reading much in the newspaper about the matter: "I would like to know how much of this patriotic fever the editors talk about comes from the hearts of the American citizen and how much from the pocketbook of the men who expect to land the contract for equipping the big military forces proposed. In the first place I think the American knows the country to be in need of no vast armed force, for with that comes the beginning of the end of democracy, and in the second place I think he is too shrewd to permit any such program to be stuffed down his throat by men who are going to make money out of it."

SOME RECORD

Dover Treasurer's Annual Report Shows Something Out of the Ordinary.

The annual report of the treasurer of the town of Dover discloses the fact that the town has no need for peace officers.

During the year there was collected for fines only \$8, and \$2.45 was paid W. H. Thomas for taking the prisoner to jail and \$1 to Mr. Thomas for feeding the prisoner, leaving the town's cash book a balance of \$4.55 out of the \$8 collected.

If there is another community the size of Dover that can beat this record, let's hear from it.

CAN'T PROVE HE IS DEAD

Will of a Man Who Has Been Missing Twenty-One Years, Offered for Probate.

Denver.—For the first time in the history of the Denver county court the will of a man of whose death there is no record has been lodged with the clerk of the court. It may become necessary to have the maker, George T. Sheets, declared legally dead before the instrument is offered for probate.

Sheets, a contractor, made the will in 1893. He was then seventy-two years old. A year later he disappeared. The family did not know of the existence of the will until a few days ago, when Attorney Edwin Parke discovered the document in his safe. Parke turned it over to the clerk of the court.

MORE JOBS THAN CHEMISTS

Scarcity of Engineers Shown at Columbia University Since Outbreak of War.

New York.—Since the outbreak of the war and the resulting increase in chemical projects in this country the demand for chemical engineers has grown so rapidly that the companies are finding it difficult to fill the many places that are now open.

Indication of this was given at Columbia university when Dean Frederick A. Goette of the graduate engineering school reported that he had received a call from a mining company for several chemical engineers familiar with the iron and steel industry, but that he has been unable to find any of the recent graduates who were not already well placed.

IS LONELIEST OF PUPILS

Missouri Youth Has School and Teacher All to Himself—Sports Are Enchanted.

Chillicothe, Mo.—Livingstone county has the smallest possible school in the world—it has just one pupil. But, despite the small enrollment, it keeps grinding steadily away, confining its activities principally to the text books and eschewing football and other forms of athletics.

The school in question is in district No. 2 in Medicine township and Miss Mary Phillips is the teacher. The list of matriculants has not been published. When the term began five weeks ago, it was anticipated that a number of children would enroll, but only this one boy came, so the teacher started in with the course.

SPORT NOTES.

Hughie Jeanings has secured as coach for his pitchers that wise old backstop, Billy Sullivan. The Detroit batteries, heretofore the weakest cog in the Jennings wheel, are expected to show something under his tutelage.

Ted Meredith will meet Joe Higgins in the 600-yard special race at the Millrose games on January 26, and he will be put to one of his hardest tests.

George T. Adee, who was prominent in Yale athletics, and is president of the Country Club of Westchester, is slated to head the United States National Lawn Tennis Association.

WEAK FROM GRIPPE

Home Missionary Tells How She Restored Her Strength.

"I am a Home Missionary, was weak and run-down after a hard spell of LaGrippe. I had headaches, indigestion and pains in my chest, and was tired all the time. A friend asked me to try Vinol and the result is I am free from those troubles and I feel well and strong and able to go to work again." Mrs. Hattie Johnson, Towanda, Pa.

The reason Vinol was so successful in building up Mrs. Johnson's health is because it is a constitutional remedy which contains peptonate of iron to enrich and revitalize the blood, the nourishing properties of beef peptonate and the healing medicinal extractives of fresh, healthy cod's livers, all combined in a delicious native wine, without oil.

We wish every person in Maysville who is suffering from a weakened, run-down, debilitated condition, would try our Vinol on our guarantee to return their money if it fails to benefit them.

SHIP PURCHASE

More Expensive Than Subsidy—Republicans Will Expose Democratic Fallacy.

Washington, D. C.—Republicans in Congress this winter will be relentless in exposing the weakness and the disaster which have characterized Democratic administration of national affairs—but they will not content themselves with a program of mere agitation. Against every Democratic proposal for the raising of revenue, for defense or for any other purpose of national scope and interest, the Republicans will present their own well grounded plans for legislation, so that the issues may be clearly defined.

Some of these Republican proposals will have to await the completion of the Democratic program for the session. Others, however, are already prepared—among them the measure which Senator Gallinger of New Hampshire, Republican floor leader in the upper branch, will offer as a substitute for the Wilson-McAdoo socialist scheme of government-owned shipping. It is a clear cut and explicit proposal which the Republicans make in the Gallinger bill. Under its provisions both cargo ships—"tramp" vessels plying here and there—and mail, passenger and fast freight liners on regular routes will receive national encouragement. A subsidy at the rate of 1 cent per gross registered ton for every hundred miles traversed on the outward voyage in foreign trade is offered to cargo craft of a type fit for approval by the Secretary of the Navy as transports, fuel ships, ammunition ships, supply ships, etc., on condition that they be held at the disposal of the government in time of need. Our present navy in a sudden war would require hundreds of auxiliary ships beyond the present resources of our mercantile marine and an enlarged navy would need many more. The value of these merchant vessels would be increased by Senator Gallinger's provision that they must carry a certain number of American boys to be trained in seamanship or engineering. Thus the shipowners in return for the compensation intended to place them on a fair equality in wage costs with their foreign competitors, would be rendering a specific service to the entire nation, apart from and beyond the delivery of American goods to overseas purchasers.

As to regular mail lines, Senator Gallinger takes a strong and timely step in making special provision for increased compensation not to exceed \$10 a mile outward to American-built steamships of the highest speed on the great trade routes to Europe. This proposal is substantially the equivalent of the British subsidy to the Cunard line, which produced the Maudslayi and the Lusitania. If the plan were carried into effect it would give the United States the swiftest and most valuable steamships on the North Atlantic. Moreover, special provision is made in the Gallinger bill for an object for which the Republican senators have long contended—regular American steamship services to the further countries of South America and to the Orient.

The nations of the world are now expending in steamship subsidies \$50,000,000 a year, of which the British proportion is about \$10,000,000. The United States pays to American ships under contract for carrying the mails a little more than \$1,000,000 and recoules it all back and more in ocean postage. Japan extends \$5,000,000 or \$6,000,000, and even Canada about \$3,000,000. The cost of the Gallinger bill would be perhaps \$5,000,000 with Pacific and Atlantic lines established.

Mr. McAdoo's plan calls for anywhere from thirty to fifty millions of initial expense, with a never-ending annual demand to pay the losses inevitable from government control. If Republican contentions in other regards are as well fortified as this one is, the party can look forward to all approaching debates in Congress with no anxiety.

INVESTORS IN MONTREAL RUBLE GET CENT ON DOLLAR.

Montreal, January 10.—Over 3,500 investors in the Charles D. Sheldon got-rich-quick scheme, which burst with a loud noise when Sheldon was put behind the bars, will get exactly \$1.35 for each \$100 they put into the scheme. The slim dividend has been prepared, and it remained open to objection up to today. Checks will go to the creditors, those credulous investors who entrusted their savings to Sheldon, formerly known as the financial "wizard" of Montreal.

Some one asks why Congress goes to Washington for the three weeks before the holidays, when no business is ever done? Probably though some jobs are secured for constituents during that period.

Perhaps the leading feature in the religious work in this city is the revival at the Second M. E. church, South. The result of the meeting up to Sunday night is conversions six, baptisms one, sanctifications one. Rev. Spelt returned at a late hour from Mt. Olivet accompanied by his wife. He preached from Exodus, fifth chapter, first to ninth verses. Some text and some sermon. Meetings every afternoon at 2 o'clock and every night at 7. The public is cordially invited to all these services.

The county president and secretary of the Sunday School Union journeyed to Orangeburg Sunday. The Christian Sunday school is a live, wide awake school under the superintendency of Mrs. Jennie Zeigler. The school enrollment is 200. On Sunday it was only thirty-six. The school is suffering from the grip and cold weather. It is graded and the church building would be a credit to any community. From that Sunday school the M. E. church, South, Sunday school was visited. It is a good church building but as the superintendent, Mr. Charles Dean, is sick at present, there was no school. After preaching services the County Sunday school Secretary, Mr. William Hall, made a most excellent address. It is the intention of the county president to visit every school in the county and he hopes the county secretary will be with him.

MAYSVILLE WON.

Friday night at Manchester the Mayville High School basketball team defeated the Manchester High school team by the score of 24 to 9. The game was exciting, the playing of Edward Parker for the locals, featuring. The local team was pictured in the Cincinnati Sunday Enquirer, which touts them as the leaders of this section of the state.

O. S. L. MAGNATES MEET SUNDAY.

Next Sunday at the Haylin Hotel, Cincinnati, the Ohio State League magnates will hold a meeting to decide on the plans for the coming season. Messrs. Thomas M. Russell and Claude Watkins, owners of the local club, will represent Mayville at the meeting.

FUNERAL OF EUGENE CORBITT.

The funeral of Eugene Corbitt, aged 23 years, who died at the home of his parents, Mr. and Mrs. John Corbitt, near Washington, was held Monday morning from the late residence. Interment in the Washington cemetery.

MARRIED SATURDAY.

Emory Tracraft, 25, and Miss Berle S. Tully, 23, of Lewis county, were married Saturday in the office of County Clerk Owens by Judge W. H. Rice.

Federal investigation of the sinking of the steamer Kauawha last Wednesday night when she struck a pier and sank in the Ohio river below Parkersburg, was started today by Captains T. G. Thomas and W. H. Clark, steamboat inspectors in the Point Pleasant district. Search for bodies was continued and efforts made to check up completely the list of missing.

Eugene Hoyd of Minerva won third prize for best ear of dent corn at the annual corn show at Lexington last week. James Delzell of Fleming county, won first premium in this class.

Trains on the C. & O. Sunday were way off. Regular No. 5 went west as Second No. 3 Sunday night, and regular No. 3 was three hours and a half late.

The regular monthly meeting of the Board of City Missions will be held Tuesday afternoon at 2 o'clock at the Mission Home on Sutton street.

Mr. and Mrs. William Ryan of Millersburg, and Mrs. William Tamm of Danville are in this city to attend the funeral of Eugene Corbitt.

Mr. Charles T. Gray of Augusta, was in Mayville Sunday visiting friends.

Mrs. J. S. Garrison, aged 59, died at her home at Mt. Olivet Thursday.

Mr. W. C. Cox of Vanceburg, was a business visitor here Saturday.

Miss Lena Walsh is visiting in Cincinnati this week.

RIVER NEWS

The combine towboat F. M. Wallace with a tow of twenty pieces, struck the rocks east of Huntington early Friday morning and lost ten coalboats filled with about 300,000 bushels of coal in thirty feet of water. It is thought the coal will be a total loss, as the high stage of the river will wash it out of the wrecked boats.

It is now Captain Roy Edgington of Augusta, as he went to Cincinnati Monday and was granted master's license on the Ohio and Mississippi rivers and their tributaries. Roy is the sixth member of the Edgington family to be granted master's license. The father, Captain G. W. Edgington, is one of the best known rivermen on the Ohio, and he now has five sons following in his footsteps—Captain Emory, Arch, Fred, Drew and Roy.

H. A. Foster, a Findlay, O., vagrant, after recent arrest received his first bath in three years.

OUR COLORED CITIZENS

The funeral of Mrs. Lulu Keys, who died Saturday at the home of her mother, will be held today at 1:30 o'clock at the Bethel Baptist church. Services will be conducted by the pastor. Interment in Mayville cemetery.

Value of Your Eyes

if you could not see to read and if you were unable to see the beauties
of nature. You are not treating yourself fairly by neglecting your
eyes. You may have a slight defect that later may become serious.
Your headache and nervousness may be caused by your eyes. If
glasses will not help you we will tell you so. We will examine your
eyes. Broken lenses duplicated.

MISSES MILLS.

Mrs. Oliver Heister is better with
rheumatism.

Marion Mice, Sr., is suffering from
stomach trouble.

Edward Hinton and family have
moved here from Knightstown, Ind.

J. S. Mice and J. C. Wilson spent
part of this week in Mayville on
business.

Rev. Charles Littleton of Goddard,
preached here last Saturday night
and Sunday.

Reece Hinton has purchased the
home farm of John Dunaway here
consisting of ninety-one acres, pay-
ing \$375 cash.

Rev. Jeff Reynolds, a Baptist min-
ister of this place, held services at
Waltz in Rowan county, last Satur-
day and Sunday.

Rant James of this vicinity, spent
several days in Carter and Boyd
counties recently visiting relatives and
friends.

Jesse Wilson and Ora Evans of this
place, have been laid up for a few
days with grip, but are now better.

Zay Wyatt and family, who sold out
very recently and started for Okla-
homa to reside, write friends here that
they have settled at Connersville, Ind.

Mr. William M. Manik, who resides
on Big Run, near here, and who lost
\$63 while returning from Mayville,
where he had been delivering tobacco,
has failed to hear of same.

A Mr. Bulx of Lewis county, who
contracted for the Fumell Humphrey
farm here recently for \$500 cash, con-
sisting of ninety-two acres, has just
called the trade off for unknown reasons.

Charles H. Compton, who resides
here and who has been teaching the
last twenty-five years in this, Fleming,
and Carter counties, and who has
taught for the last twenty-one consecu-
tive years under first class certifi-
cates, has recently been granted a life
certificate from the State Board of
Education at Frankfort.

During the holidays just passed we
had more drunkenness, fighting, quar-
reling, gambling, cursing and swear-
ing and general disorder entirely than
we have ever known here before. It
seems that instead of our sending mis-
sionaries to foreign lands to teach the
heathens, we need a big lot of mis-
sionary work done right in our own
country. At almost every kind of a
public gathering that is held in this
county here of late, there is a lot of
disorder of the worst kind, and our
best citizens have grown disgusted
and have stopped attending. We say:
what will the ending be?

EASTER LATE THIS YEAR.

Easter Sunday this year falls on
April 23, the latest in many, many
decades. Such a late observance will
not occur again until 1943, when the
date is April 25. It won't fall on
April again until the year 2000. Ex-
amples of late Easterns are few. Rec-
ords show that in 1728 Easter fell on
April 23, and in 1739 on April 29.

ADMINISTRATOR'S NOTICE.

All persons holding claims against
the estate of William Young, deceased,
will please present them properly
proven for settlement. Persons owing
the estate will please settle same with
me.
